

STATEMENT TO

ASSEMBLY, No. 5307

with Assembly Floor Amendments
(Proposed by Assemblywoman SPEIGHT)

ADOPTED: DECEMBER 21, 2023

Assembly Bill No. 5307 directs the Department of Education to develop guidelines for school districts concerning mental health services.

These Assembly floor amendments remove the requirement that the Department of Education review and update the mental health guidelines annually, and instead require that the department review and update the guidelines as needed. Additionally, the amendments require the Department of Education to provide information about the Division of Children's System of Care in the Department of Children and Families.
