SENATE, No. 3092

with Assembly Floor Amendments
(Proposed by Assemblyman BENSON)

ADOPTED: MAY 25, 2023

These floor amendments would:

- 1) require the model of meter collar adapter to be installed to have been approved by the electric public utility for installation in its service territory;
- 2) increase from 60 days to 90 days the amount of time for an electric public utility to approve or disapprove a meter collar adapter for installation in its service area and requires a manufacturer to submit the specific model of meter collar adapter with its request for approval;
- 3) allow utilities to recover the cost of service work on any customer-owned meter collar adapter, or maintenance or repair work on any electric public utility-owned equipment necessary due to the installation of any customer-owned meter collar adapter, by charging the customer directly; and
- 4) specify that an electric public utility may not be held liable for damage to any person or property, attributable to a meter collar adapter.
