

SENATE ENVIRONMENT AND ENERGY COMMITTEE

STATEMENT TO

SENATE, No. 3305

with committee amendments

STATE OF NEW JERSEY

DATED: DECEMBER 15, 2022

The Senate Environment and Energy Committee favorably reports Senate Bill No. 3305, with committee amendments.

This bill, as amended by the committee, would require the Board of Public Utilities to promulgate rules and regulations to allow low- and moderate-income residential customers to self-attest to the residential customer's income for participation in a community solar program established pursuant to P.L.2018, c.17 (C.48:3-87.8 et al.).

The committee amendments to the bill correct several citations to existing law.
