

**SENATE COMMITTEE SUBSTITUTE FOR
SENATE BILL NO. 1085**

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Committee Substitute for Senate Bill No. 1085 with my recommendations for reconsideration.

This bill requires the Department of Environmental Protection ("DEP") to establish a forest stewardship program for State-owned lands. I commend the bill's sponsors for their efforts to address this important environmental issue. I agree that it is in the public interest to establish a program for the responsible stewardship of forests on State-owned lands to promote the long-term health and vigor of New Jersey's forests.

My sole concern with the bill is the requirement that DEP abdicate its responsibility to serve as the State's environmental steward to a named third party. According to the Office of the Attorney General, this constitutes an improper delegation of Executive Branch authority in violation of the Constitution. Therefore, I recommend removing the mandatory requirement in favor of relying on DEP's and the State Forester's expertise, but still empowering the DEP Commissioner to, in his or her discretion, seek the certification of an independent, third-party entity with expertise in forest stewardship should such certification be prudent.

Accordingly, I herewith return Senate Committee Substitute for Senate Bill No. 1085 and recommend that it be amended as follows:
