23 partnership or other entity shall operate a pharmacy benefits
24 management company in this State except in accordance with the
25 provisions of this act. A pharmacy benefits management company

28 act.

29 b. A pharmacy benefits management company operating in this
30 State on the effective date of this act shall submit an application for
31 a certificate to the commissioner no later than nine months after the
32 effective date of this act. The pharmacy benefits management
33 company may continue to operate during the pendency of its
34 application, but in no case longer than 18 months after the effective
35 date of this act. If the application is denied, the applicant shall then
36 be treated as a pharmacy benefits management company whose
37 certificate has been revoked pursuant to section 12 of this act.
38 Nothing in this subsection shall operate to impair any contract
39 which was entered into before the effective date of this act.

40 c. Any person providing pharmacy benefits management
41 services on behalf of a purchaser located in this State in a manner
42 substantially provided for in this act shall be presumed to be subject
43 to the provisions of this act unless the person is otherwise regulated
44 under State law.

45
46 3. a. A pharmacy benefits management company shall submit
47 an application for a certificate on the form, and in the manner,
48 prescribed by the commissioner. The application shall be signed

1 under oath by the chief executive officer of the pharmacy benefits
2 management company or by a legal representative of the pharmacy
3 benefits management company, and shall include the following:

4 (1) the name, address, telephone number and normal business
5 hours of the pharmacy benefits management company;

7 employed by, or otherwise represents, the pharmacy benefits
8 management company and who is available to answer questions
9 concerning the application which may be posed by department staff;

10 (3) the proposed plan of operation for the pharmacy benefits
11 management company, including the mechanism by which the
12 pharmacy benefits management company will provide pharmacy
13 benefits management services; and

14 (4) such other information as the commissioner may require to
15 ensure that the pharmacy benefits management company can and
16 will comply with the requirements for certification.

17 If there is a material change in any of the information included in
18 the application subsequent to its initial submission, including a
19 change subsequent to the issuance or renewal of the certificate, the
20 pharmacy benefits management company shall inform the
21 commissioner of the change on a form, and in a manner, prescribed
22 by the commissioner.

23 b. The commissioner shall issue a certificate of authority to a
24 pharmacy benefits management company if, in the determination of
25 the commissioner, the application demonstrates that:

26 (1) the pharmacy benefits management company will provide
27 high-quality pharmacy benefits management services in a cost-
28 effective manner which ensures adequate availability and
29 accessibility of pharmacy benefits services to covered persons;

30 (2) the pharmacy benefits management company will provide a
31 continuous quality of pharmaceutical care assurance and
32 improvement program, a drug utilization review program which
33 meets standards adopted by the commissioner, and a complaint
34 resolution mechanism to provide reasonable procedures for the
35 resolution of complaints by pharmacists, health care practitioners
36 and covered persons;

37 (3) the pharmacy benefits management company is financially
38 sound and may reasonably be expected to meet any obligations to
39 persons covered under a purchaser's health benefits plan;

40 (4) the pharmacy benefits management company has a
41 procedure to establish and maintain a uniform system of cost
42 accounting approved by the commissioner and a uniform system of
43 reporting and auditing, meeting the requirements of the
44 commissioner; and

45 (5) the pharmacy benefits management company has adopted
46 procedures to ensure compliance with all State and federal laws
47 governing the confidentiality of its records with respect to
48 pharmacists, health care practitioners and covered persons.

1 c. If an application is rejected by the commissioner, the
2 commissioner shall specify in what respect it fails to comply with
3 the requirements for certification. When the certificate of a
4 pharmacy benefits management company is revoked, the company
5 shall proceed, immediately following the effective date of the order
6 of revocation, to pay all outstanding pharmacy benefits claims of
7 covered persons and shall conduct no further business except as
8 may be essential to the orderly conclusion of the affairs of the
9 company. The commissioner may permit such further operation of
10 the company as the commissioner may find to be in the best interest
11 of covered persons to obtain pharmaceutical services.

12 d. A certificate issued pursuant to subsection b. of this section
13 shall be valid for three years from the date of issuance by the
14 commissioner, and shall be renewed thereafter, upon payment of the
15 renewal fee by the pharmacy benefits management company, if the
16 company meets the standards for recertification prescribed by the
17 commissioner.

18 e. The commissioner shall establish uniform application and
19 renewal fees for the certificate, the amount of which shall be no
20 greater than is reasonably necessary to enable the department to
21 carry out the provisions of this act.

22

23 4. a. Any pharmacy benefits management company that enters
24 into a contract with a pharmacy or pharmacist to provide pharmacy
25 benefits management services in this State after the effective date of
26 this act shall file the contract with the commissioner 30 days prior
27 to the execution of the contract. The contract shall be deemed
28 approved unless the commissioner disapproves the contract within
29 30 days after filing with the commissioner. Disapproval shall be in
30 writing, stating the reasons therefor, and a copy thereof shall be
31 delivered to the pharmacy benefits management company. The
32 commissioner shall promulgate regulations establishing criteria for
33 the approval and disapproval of pharmacy benefits management
34 contracts.

35 b. A pharmacy benefits management company shall file a
36 statement with the commissioner annually by March 1. The
37 statement shall be verified by at least two principal officers and
38 shall cover the preceding calendar year. Each pharmacy benefits
39 management company shall also send a copy of the statement to the
40 New Jersey State Board of Pharmacy.

41 The statement shall be on a form prescribed by the commissioner
42 and shall include:

43 (1) a financial statement of the company, including its balance
44 sheet and income statement for the preceding year;

45 (2) the number of covered persons enrolled during the year, the
46 number of covered persons enrolled as of the end of the year and
47 the number of enrollments terminated during the year; and

1 (3) other information relating to the operations of the pharmacy
2 benefits management company as required by the commissioner
3 pursuant to this act.

4 c. If the pharmacy benefits management company is audited
5 annually by an independent certified public accountant, a copy of
6 the certified audit report shall be filed annually with the
7 commissioner by June 30.

8 d. The commissioner may extend the time prescribed for any
9 pharmacy benefits management company for filing annual
10 statements or other reports or exhibits of any kind for good cause
11 shown; however, the commissioner shall not extend the time for
12 filing annual statements beyond 60 days after the time prescribed by
13 subsection b. of this section. Pursuant to section 12 of this act, the
14 commissioner may suspend or revoke the certificate of any
15 pharmacy benefits management company which fails to file its
16 annual statement within the time prescribed by this section.

17
18 5. a. In lieu of or in addition to making a financial examination
19 of a pharmacy benefits management company pursuant to section 4
20 of this act, the commissioner may accept the report of a financial
21 examination of any other person responsible for the pharmacy
22 benefits management company under the laws of another state
23 certified by the insurance supervisory official, similar regulatory
24 agency or state health commissioner of that state.

25 b. The commissioner shall coordinate financial examinations of
26 a pharmacy benefits management company that provides pharmacy
27 benefits management services for purchasers in this State to ensure
28 an appropriate level of regulatory oversight and avoid any undue
29 duplication of effort or regulation. The pharmacy benefits
30 management company being examined shall pay the cost of the
31 examination. The cost of the examination shall be deposited in a
32 special fund that shall provide all expenses for the regulation,
33 supervision and examination of all entities subject to regulation
34 under this act.

35

14

16 each covered person under a purchaser's health benefits plan a
17 notice written in easily understandable language which: explains
18 restrictions on covered pharmaceutical services under the plan; lists

28 29 30 STATEMENT

31
32 This bill provides for the regulation of the activities of pharmacy
33 benefits management companies, companies which manage
34 prescription drug benefits for sponsors of health care plans in this
35 State.

36 Under the bill, pharmacy benefits management companies, or
37 PBM's, must be certified by the Department of Banking and
38 Insurance. Certification is intended to ensure that PBM's in this
39 State are capable of providing high-quality pharmaceutical benefits
40 to covered persons. Accordingly, this bill defines the business
41 activities that a certified PBM is authorized to conduct in this State.

42 The bill requires that certain disclosures be made to covered
43 persons concerning their pharmacy benefits coverage. In addition,
44 it requires PBM's to make certain disclosures to sponsors of health
45 benefits plans who purchase pharmacy benefits management
46 services or who are considering purchasing the management
47 services. Among other pieces of information, the bill requires a
48 PBM to disclose to a purchaser any revenues, rebates or discounts

1 related to the purchaser's contract that a PBM receives from a
2 pharmaceutical manufacturer, labeler or other entity. Prior to
3 disclosing any information, PBM's may obtain a written agreement
4 from purchasers or prospective purchasers that the information
5 disclosed to them will remain confidential. This provision is in
6 response to the situation in which certain PBM's are obtaining
7 discounts from pharmaceutical manufacturers but not passing
8 those discounts on to the purchaser.

9 To protect patient safety, this bill requires a PBM to make
10 certain disclosures to health care practitioners, covered persons, and
11 purchasers if that PBM seeks authorization to substitute a drug
12 prescribed by a health care practitioner to a covered person. It also
13 defines the circumstances in which a prescribed drug may be
14 substituted for another.

15 The Commissioner of Banking and Insurance is authorized to
16 deny, suspend or revoke the certification of any PBM in the State.
17 The commissioner is also authorized to assess a penalty of not less
18 than \$250 and not more than \$10,000 for each day a PBM is in
19 violation of any provision of this act.
