1 **AN ACT** concerning Liberty State Park, supplementing Title 13 of
2 the Revised Statutes, and amending P.L.1983, c.324 and
3 P.L.2015, c.19.

4
5 **BE IT ENACTED** *by the Senate and General Assembly of the State*
6 *of New Jersey:*

7
8 1. (New section) Sections 1 through 7 of P.L. , c. (C.)
9 (pending before the Legislature as this bill) shall be known and may
10 be cited as the “Liberty State Park Protection Act.”

11
12 2. (New section) The Legislature finds and declares that:

13 a. Liberty State Park, located in Jersey City, is a priceless New
14 Jersey and American treasure and an urban oasis in the middle of
15 densely populated metropolitan northern New Jersey;

16 b. With internationally-recognized landmarks including the
17 Statue of Liberty, and Ellis Island, and the Manhattan skyline as a
18 spectacular backdrop, Liberty State Park is one of the nation’s most
19 sacred and inspiring parks;

20 c. Encompassing over 1,200 acres, approximately 600 acres of
21 land and 600 acres of water, of which all but the interior’s 235 acre
22 natural restoration area are open to the public currently, the park
23 contains significant natural, historic, recreational, scenic, and
24 cultural resources;

25 d. The park, a major historic and cultural resource with its
26 transportation and immigration history, includes: the Central
27 Railroad of New Jersey Terminal or “CRRNJ Terminal,” the third
28 landmark of America’s Gateway “Historic Trilogy” along with Lady
29 Liberty and Ellis Island; the location of portions of the historic
30 Morris Canal, with its significance to the local, region, and
31 statewide transportation industry during the 19th and 20th centuries;
32 and also the location of the Black Tom Island 1916 explosion
33 historic site, with its significance to America’s entry into World
34 War One;

35 e. The park is also a major natural resource as a sanctuary for
36 over 300 bird species including migratory species that use the park
37 as a stopover while on the Atlantic Flyway, and countless other
38 wildlife species;

39 f. More than five million people from around New Jersey, our
40 nation, and the world visit the park each year to take in the dramatic
41 and meaningful views and enjoy the peacefulness and passive
42 recreational opportunities of green open space, the beauty of nature
43 and wildlife habitats, family picnic areas, and fishing in the midst of
44 the most urbanized area on the East Coast;

EXPLANATION – Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.

1 g. Unfortunately, this unique and scarce urban green open
2 space has been the target of repeated privatization and
3 commercialization proposals since the park opened, and the subject
4 of a number of development proposals in recent years, including the
5 Department of Environmental Protection issuing requests for
6 proposals to privatize or commercialize portions of the park, which,
7 if approved, would have seriously jeopardized this beloved public
8 resource and severely harmed the public's ability to enjoy free and
9 full public access to and enjoyment of the park;

10 h. From the time of its opening on June 14, 1976, Liberty State
11 Park has had sustained overwhelming public support for a "free and
12 green" open space park, and overwhelming opposition to
13 privatization and commercialization proposals, as expressed in
14 public hearings, countless public comments, petitions, and in a
15 series of coalitions of local, regional, and Statewide groups to
16 protect Liberty State Park as a "People's Park" behind Lady
17 Liberty; and

18 i. It is fitting, proper, and necessary to recognize and respect
19 this history of overwhelming public opposition and to take action to
20 protect Liberty State Park from any inappropriate development
21 proposals and to preserve Liberty State Park for future generations.

22

32 other entity to operate on or within Liberty State Park to provide
33 small-scale commercial activities that support or promote the
34 public's use of Liberty State Park, or any building or facility

STATEMENT

This bill, to be known as the “Liberty State Park Protection Act,” would preserve Liberty State Park as a public urban green open space with authority for limited privatization by establishing certain requirements concerning actions by the Department of Environmental Protection (DEP) related to Liberty State Park and establishing a Liberty State Park Advisory Committee (committee).

The bill would prohibit the DEP from considering any proposal to commercialize, develop, or privatize Liberty State Park, except as provided in the bill. The bill would restrict the DEP from conveying, leasing, or otherwise transferring any property rights within the 235-acre natural restoration area in the interior of Liberty State Park, and at Caven Point Peninsula. The bill would require the DEP, within five years after the bill is enacted into law, and after consultation with the committee, to develop a management plan for Liberty State Park. The DEP would be required to consult the committee for review and recommendations: (1) prior to entering into any agreement for a concession, conveyance, or lease or any other transfer of property rights; and (2) prior to the extension or renewal for a term of one year or longer any lease in effect on the date the bill is enacted into law. In addition, the bill directs the DEP to develop and implement, in conjunction with the committee, a public participation process to allow public citizens and civic organizations to provide public input on any proposed changes in land use at Liberty State Park or to the management plan developed pursuant the bill, and to also, at least once each year, hold a public forum to receive input from the public concerning plans, improvements, preservation, conservation, and management of the park, in addition to any public hearings that may be required pursuant to law. The bill also directs the DEP to develop a map depicting Liberty State Park.

Under the bill, the DEP would only approve an agreement for a concession, conveyance, lease, or other agreement with a private entity to provide small-scale commercial activities if the agreement enhances the experience of a visitor to Liberty State Park, such as a bicycle or kayak rental concession, food concession, temporary winter skating rink, commercial boat tour operating from an existing boat slip, and use of the Central Railroad of New Jersey Terminal (“CRRNJ Terminal”), and other uses identified in the management plan developed pursuant to the bill.

In addition, whenever the DEP proposes to enter into a concession, lease, or other agreement for a duration of one year or longer, the DEP would be required to present the proposal to the committee for review and recommendations and provide an opportunity for public comment on the proposal, including holding two public hearings at Liberty State Park, with one hearing being held on a weekday evening and one on the weekend, and providing

1 a 30-day public comment period. In addition, the DEP would be
2 required to take these same actions when it intends to convey lands
3 acquired or developed by the State with Green Acres funds, or
4 acquired or developed by the State in any other manner and
5 administered by the department, located within or adjacent to
6 Liberty State Park.

7 The Liberty State Park Advisory Committee established by the
8 bill would be charged with assisting the DEP in conserving,
9 preserving, protecting, and improving Liberty State Park. In
10 carrying out its responsibilities, the committee would give due
11 consideration to the natural, historic, cultural, recreational, and
12 scenic resources and the local, State, and national significance of
13 Liberty State Park.

14 The committee's responsibilities would include: assisting the
15 DEP in developing the management plan required by the bill, and
16 advising the DEP on the ecological restoration of the 235-acre
17 interior portion of the park and means to increase public access and
