STATEMENT

17

18 This bill upgrades the crime of stalking when the stalking activity
19 is carried out or assisted by installation or use of a communication or
20 location monitoring program or device on the stalking victim's cellular
21 phone or wireless mobile device.

22 A person commits the crime of stalking when the person
23 "purposefully or knowingly engages in a course of conduct directed at
24 a specific person that would cause a reasonable person to fear for his
25 safety or the safety of a third person or suffer other emotional
26 distress." Stalking is ordinarily graded as a crime of the fourth degree,
27 punishable by up to 18 months imprisonment, a fine of up to \$10,000,
28 or both.

29 Under the bill, if a person's "course of conduct" in committing the
30 stalking is carried out or assisted by means of installation or use of any
31 communication or location monitoring program or device on the
32 victim's cellular phone or wireless mobile device in order to intercept
33 or acquire any form of communication or location information, the
34 stalking would be upgraded to a crime of the third degree. A crime of
35 the third degree is punishable by a term of imprisonment of three to
36 five years, a fine of up to \$15,000, or both.

37 Communication and location monitoring programs or devices are
38 often preinstalled on cellular phones or wireless mobile devices, or are
39 widely available for download or purchase for such phones or devices,
40 and in some instances are necessary to properly operate or enhance
41 phone or device operations. Recognizing the wide availability and
42 easy access to these programs and devices, this bill intends to target
43 their improper installation or use in the context of committing acts of
44 stalking.
