19 program participant to:

20 a. charge for professional services at the usual and customary

#### STATEMENT

15

16 This bill establishes a tuition reimbursement program for certain  
17 advanced practice nurses who provide home health care services in  
18 the State.

19 The program established under this bill will provide  
20 reimbursement of a portion of tuition expenses incurred from  
21 attending an accredited advanced practice nurse program to  
22 advanced practice nurses who agree to provide home health care  
23 services in the State for a period of one to four years. A program  
24 participant must: be a State resident; be certified by the New Jersey  
25 Board of Nursing as an advanced practice nurse; have specialized  
26 education or training in providing home health care services; and  
27 apply for the program within one year of obtaining certification as  
28 an advanced practice nurse.

29 Program participants will enter into a contract with the Higher  
30 Education Student Assistance Authority (HESAA) for a specified  
31 number of one-year periods of service, up to four years, in which  
32 the participant agrees to engage in the full-time practice of  
33 providing home health care services in the State. In return for this  
34 commitment, a portion of the participant’s tuition expenses in  
35 attending an accredited advanced practice nurse program will be  
36 reimbursed. Tuition reimbursement will equal 25 percent of the  
37 participant’s eligible tuition expenses for the one academic year of  
38 an advanced practice nurse program in which tuition was the  
39 lowest, in return for each full year of service under the program.  
40 The maximum total tuition reimbursement for a participant for four  
41 years of service will be 100 percent of the participant’s eligible  
42 tuition expenses for the one academic year of an advanced practice  
43 nurse program in which tuition was the lowest.

44 Under the bill, participants in the program will be required to  
45 adhere to certain terms and standards, including charging for  
46 professional services at the usual and customary rates, allowing  
47 patients who are unable to pay that charge to pay a reduced rate or  
48 receive care at no charge, and not discriminating against any patient

1 on the basis of ability to pay. Participants will also be required to  
2 maintain their State residency and certification to practice as an  
3 advanced practice nurse, remain current with payments on any  
4 student loans, maintain satisfactory performance of services, and  
5 report to HESAA on the performance of services rendered prior to  
6 receiving tuition reimbursement.
