STATEMENT

This bill requires the Department of Human Services to conduct a survey for the purpose of evaluating the New Jersey Supplemental Nutrition Assistance Program (SNAP) experience of applicants and beneficiaries. The survey is to include, at a minimum, questions concerning the applicant’s experience navigating the SNAP application process, any difficulties the applicant encountered in the application process, the availability of consumer support at the county welfare agency, and how well the applicant’s questions and concerns were addressed by staff at the county welfare agency.

The purpose of the survey is to identify the strengths and weaknesses of each county welfare agency in processing SNAP applications; formulate trainings or strategies to improve the processing of SNAP applications; and assess which counties require additional resource and staff support. The survey will be distributed to SNAP applicants at each county welfare agency. Survey data is to be made available through the Department of Human Services’ website, and the commissioner is to submit a report to the Legislature concerning the results of the survey and any recommendations for legislation or other action.
