STATEMENT

21

22 This bill would prohibit a school district from entering a contract
23 with a contracted service provider unless the contracted service
24 provider offers health care benefits coverage to its employees who
25 are performing work under the contract, provided the employees are
26 working for at least 25 hours per week under the contract. The bill
27 also stipulates that the coverage would have to exceed the definition
28 of silver level under the federal “The Patient Protection and
29 Affordable Care Act.” In addition, the employee would not be
30 required to contribute more than 20 percent of the cost of the
31 coverage.
