Office of Legislative Services Estimate

Fiscal Impact	<u>FY 2022</u>	<u>FY 2023</u>	<u>FY 2024</u>
State Cost Increase		Indeterminate	

- The Office of Legislative Services (OLS) estimates that the enactment of this bill would result in an indeterminate increase in annual State expenditures. The bill may result in increased State costs to the Department of Military and Veterans Affairs to provide for the establishment of a sexual assault prevention and response program and the hiring of a full-time sexual assault prevention coordinator. The costs would include materials, supplies, office space, and staff costs associated with salary and fringe benefits.
- The increased State costs generally assume the hiring of new employees; however, it is possible that the department would appoint an existing employee. If the department appoints an existing employee for the position, the potential annual State costs could be reduced because of the reallocation of existing resources and changing the role of current employees.

BILL DESCRIPTION

This bill requires the Adjutant General of the Department of Military and Veterans Affairs to establish a sexual assault prevention and response program, and appoint an individual to serve as the sexual assault prevention coordinator. The coordinator will provide victim advocacy services, including ensuring that victims of sexual assault receive appropriate responsive care, understand available reporting options, and are notified of eligibility for compensation from the Victims of Crime Compensation Office. The coordinator may also file an application with the consent of the

victim for a protective order on behalf of the victim. The protective order may be filed at the State level and with the military authorities.

The coordinator, as appropriate, will refer the case or allegation of sexual assault to the Office of the Attorney General for investigation. The Attorney General will designate an employee of the Department of Law and Public Safety to investigate the case or allegation.
