7 1. The following proposed amendments to the Constitution of
8 the State of New Jersey are agreed to:

9
10 PROPOSED AMENDMENTS

11
12 Amend Article VIII, Section II, paragraph 2 to read as follows:

13 2. a. No money shall be drawn from the State treasury but for
14 appropriations made by law. All moneys for the support of the State
15 government and for all other State purposes as far as can be
16 ascertained or reasonably foreseen, shall be provided for in one
17 general appropriation law covering one and the same fiscal year;
18 except that when a change in the fiscal year is made, necessary
19 provision may be made to effect the transition. No annual general
20 appropriation law or other law appropriating money for any State
21 purpose shall be enacted if the [appropriation] appropriations
22 contained therein, together with all prior appropriations made for
23 the same fiscal period, shall exceed the total amount of revenue on
24 hand and anticipated which will be available to meet such
25 appropriations during such fiscal period, as certified by the
26 Governor.

27 b. (1) For each fiscal year commencing after approval of this
28 amendment by the voters, no annual appropriation law or
29 supplemental appropriation law or other law appropriating money
30 from any source, for any State purpose for the same fiscal year shall
31 be enacted if the appropriation or appropriations contained therein,
32 together with all prior appropriations made for the same fiscal year,
33 shall exceed the amount of total appropriations enacted for the prior
34 fiscal year by more than 2.0 percent.

35 (2) The fiscal year appropriation limit established by this
36 subparagraph b. shall not be construed as requiring the enactment of
37 appropriations for a fiscal year of an amount equal to the limit.

38 (3) The amount of appropriation permitted by a fiscal year
39 appropriation limit imposed during any of the three immediately
40 preceding fiscal years and not appropriated during any of those
41 years may be appropriated in a current fiscal year without regard to
42 the current fiscal year appropriation limit. That appropriation of
43 previously unused permitted appropriations from up to three
44 preceding fiscal years shall not be used to determine the
45 appropriation limit for the next fiscal year.

46 (4) The unexpended balance of an appropriation, once enacted
47 under the fiscal year appropriation limit established by this

subparagraph b., may be reappropriated in the next fiscal year without being subject to the annual fiscal year appropriation limit for that next fiscal year, and any unexpended balance amount shall not be included in determining the base amount of enacted appropriations applicable for any subsequent fiscal year in which it is reappropriated.

c. The following appropriations shall not be subject to the fiscal year appropriation limit established in subparagraph b.:

(1) of State aid for school districts, municipalities and counties;

(2) money received or reasonably anticipated to be received by the State from the federal government;

(3) for State government payments that may be required to be made by another provision of this Constitution to pension systems that provide for retirement benefits;

(4) for payment of State capital construction projects, including but not limited to appropriations of State revenue directed to be credited to a special account in the General Fund for purposes of the State transportation system pursuant to Article VIII, Section II, paragraph 4 of this Constitution and for the line-item appropriations for the planning, acquisition, engineering, construction, reconstruction, repair and rehabilitation of the transportation system in this State pursuant to that paragraph;

(5) to pay the interest and principal due on debt authorized by a majority of the legally qualified voters of this State pursuant to the provisions of Article VIII, Section II, paragraph 3 of this Constitution or due on refinancing bonds issued pursuant thereto, and to pay the interest and principal due on debt of an autonomous public corporate entity, established either as an instrumentality of the State or otherwise exercising public and essential governmental functions, which debt or liability has a pledge of an annual State appropriation as the ways and means to pay the interest of such debt or the refinancing thereof, if such an appropriation was enacted before the fiscal year appropriation limit established in subparagraph b. applied;

(6) required for purposes of war, or to repel invasion, or to suppress insurrection, or to meet an extraordinary emergency caused by disaster or act of God, but not including money for routine personnel costs and operations historically funded as part of the annual appropriations act for the support of the State government; and

(7) money required to be deposited in, and expended from, the "Property Tax Relief Fund" established by N.J.S.54A:9-25.

The appropriation limit for the first fiscal year commencing after approval of the amendment adding subparagraphs b. through f. of this paragraph, shall be determined using as the base amount for that determination the amount of all appropriations enacted in the prior fiscal year, exclusive of appropriations listed as exceptions in (1) through (7) of this subparagraph c.

1 d. Notwithstanding subparagraph b. of this paragraph and the
2 provisions of Article IV, Section IV, paragraph 6 of this
3 Constitution, the Legislature may, from time to time, provide by
4 law for an appropriation or appropriations in excess of the
5 appropriation limit provided in subparagraph b. of this paragraph if
6 the bill that proposes to enact such excess appropriation or
7 appropriations is passed by the Legislature as a fiscal emergency
8 measure by the affirmative vote of two-thirds of the authorized
9 membership of each house of the Legislature. Appropriations
10 enacted as fiscal emergency measures pursuant to this subparagraph
11 d. shall not be used in determining the base amount of enacted
12 appropriations for the purpose of determining an annual
13 appropriation limit for the subsequent fiscal year.

14 e. No transfer of an item of appropriation or other budgetary
15 mechanism shall allow for an appropriation in excess of the
16 appropriation limit provided by subparagraph b. of this paragraph
17 except under the procedure provided by subparagraph d. of this
18 paragraph.

19 f. If any function or service performed by the State is
20 transferred to, or its costs of operation or performance are assumed
21 by, any agency or instrumentality of the State or of any county or
22 municipality, with the power to issue bonds to finance the
23 undertaking of any function or the performance of any service, the
24 decrease in State appropriations in the fiscal year in which the
25 transfer or assumption occurred shall be deemed to have occurred
26 in the prior fiscal year so as to decrease the prior year
27 appropriations as the base upon which the appropriation limit shall
28 be calculated. "Bonds" as used in this subsection means bonds
29 which do not constitute a debt or liability of the State or of any of
30 its counties or municipalities or a pledge of the faith and credit of
31 the State or of any of its counties or municipalities.

32 (cf: Art.VIII, Section II, par.2, January 1, 1948)

33
34 2. When this proposed amendment to the Constitution is finally
35 agreed to pursuant to Article IX, paragraph 1 of the Constitution, it
36 shall be submitted to the people at the next general election
37 occurring more than three months after the final agreement and
38 shall be published at least once in at least one newspaper of each
39 county designated by the President of the Senate, the Speaker of the
40 General Assembly and the Secretary of State, not less than three
41 months prior to the general election.

42
43 3. This proposed amendment to the Constitution shall be
44 submitted to the people at that election in the following manner and
45 form:

46 There shall be printed on each official ballot to be used at the
47 general election, the following:
