

P.L. 2021, CHAPTER 477, *approved January 18, 2022*
Assembly, No. 6073 (*First Reprint*)

1 AN ACT concerning basic life support services.

2

3 BE IT ENACTED by the Senate and General Assembly of the State
4 of New Jersey:

5

6 1. a. As used in this section:

7 ¹“ACLS certification” means valid certification in Advanced
8 Cardiac Life Support as issued by the American Heart Association.

9 “Advanced life support” means an advanced level of pre-hospital,
10 inter-hospital, and emergency service care which includes basic life
11 support functions, cardiac monitoring, cardiac defibrillation,
12 telemetered electrocardiography, administration of anti-arrhythmic
13 agents, intravenous therapy, administration of specific medications,
14 drugs and solutions, use of adjunctive ventilation devices, trauma care
15 and other techniques and procedures authorized in writing by the
16 Commissioner of Health.¹

17 “Basic life support” means a basic level of pre-hospital care which
18 includes patient stabilization, airway clearance, cardiopulmonary
19 resuscitation, hemorrhage control, initial wound care and fracture
20 stabilization, and other techniques and procedures authorized by the
21 Commissioner of Health.

22 ¹“Emergency medical technician-paramedic” means a person
23 trained in advanced life support services and certified by the
24 Commissioner of Health to render advanced life support services as
25 part of a mobile intensive care unit.¹

26 “First responder” means a police officer, firefighter, or other
27 person who has been trained to provide emergency medical first
28 response services in a program recognized by the Commissioner of
29 Health.

30 ¹“ITLS certification” means valid certification in International
31 Trauma Life Support as issued by the American College of Emergency
32 Physicians.

33 “Mobile intensive care nurse” means a registered nurse who: has
34 completed at least one year of full-time nursing care performing
35 advanced clinical skills in the critical care unit or emergency
36 department of an acute care hospital; possesses Emergency Medical
37 Technician-Basic, cardiopulmonary resuscitation, and ACLS
38 certifications; possesses PALS or Pediatric Education for Prehospital
39 Professionals-Advanced certification or has successfully completed the
40 Emergency Nurse Pediatric Course to the standards of the Emergency

EXPLANATION – Matter enclosed in bold-faced brackets [thus] in the above bill is
not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.

Matter enclosed in superscript numerals has been adopted as follows:

¹Assembly AHE committee amendments adopted January 3, 2022.

Nurses Association; possesses either PHTLS or ITLS certification; has successfully completed at least a mobile intensive care unit field internship consisting of at least 100 hours, has successfully intubated at least five patients and has demonstrated proficiency in pre-hospital advanced life support treatment to the satisfaction of the nurse's mobile intensive care program's medical director; is physically capable of performing the duties of a mobile intensive care nurse; and is endorsed by the medical director of a mobile intensive care program.

"Mobile intensive care unit" means a specialized emergency medical service vehicle operated for the provision of advanced life support services under the direction of an authorized hospital.

"PALS certification" means valid certification in Pediatric Advanced Life Support as issued by the American Heart Association.

"PHTLS certification" means valid certification in Pre-Hospital Trauma Life Support as issued by the National Association of EMTs.

"Specialty care transport nurse" means a registered nurse who has: completed at least one year of full time nursing care performing advanced clinical skills in an acute care hospital's critical care unit or emergency department and possesses valid certification as either a critical care registered nurse or a certified emergency nurse; holds certifications in CPR and ACLS; holds certification in PALS or has successfully completed the Emergency Nurse Pediatric Course to the standards of the Emergency Nurses Association; has additional training in endotracheal intubation and has been deemed competent by the medical director; and has documented completion of competencies for advanced life support equipment, including, but not limited to, cardiac monitor/defibrillator, external pacemaker, IV pump, ventilator, intra-aortic balloon pump, specialized respirators, and incubators.

"Specialty care transport unit" means a specialized transport medical service vehicle that is validly licensed by the department and operated in accordance with rules and regulations promulgated by the department.¹

b. ¹(1) Until January 1, 2023, ¹[each] ¹a basic life support services vehicle ¹other than a basic life support services vehicle described in subsection d. of this section¹, when in service, shall be staffed by a minimum of two emergency medical technicians or by a minimum of one emergency medical technician and one first responder. Any individual staffing a basic life support vehicle ¹as provided in this paragraph¹ shall be authorized to render care within that individual's scope of practice. In the case of a vehicle staffed by ¹[a]¹ one emergency medical technician and one first responder, the emergency medical technician shall be present in the patient compartment of the vehicle at all times when a patient is present in the vehicle.

¹(2) Until January 1, 2023, a mobile intensive care unit, when in service, shall be staffed by a minimum of two persons, which two persons may be two emergency medical technician-paramedics, two

1 mobile intensive care nurses, one emergency medical technician-
2 paramedic and one mobile intensive care nurse, or one emergency
3 medical technician and one emergency medical technician-paramedic
4 or mobile intensive care nurse. Any individual staffing a mobile
5 intensive care unit as provided in this paragraph shall be authorized to
6 render care within that individual's scope of practice. In the case of a
7 mobile intensive care unit staffed by one emergency medical
8 technician and one emergency medical technician-paramedic or
9 mobile intensive care nurse, the emergency medical technician-
10 paramedic or mobile intensive care nurse shall provide primary patient
11 care.

12 (3) Until January 1, 2023, a specialty care transport unit, when in
13 service, shall be staffed by a minimum of one specialty care transport
14 nurse and one emergency medical technician. Any individual staffing
15 a specialty care transport unit as provided in this paragraph shall be
16 authorized to render care within that individual's scope of practice.
17 The specialty care transport nurse shall provide primary patient care.¹

18 c. Each individual staffing a basic life support vehicle ¹, a mobile
19 intensive care unit, or a specialty care transport unit¹ pursuant to
20 ¹subsection b. of¹ this section shall be at least 18 years of age. In
21 addition, a first responder staffing a basic life support vehicle
22 ¹pursuant to paragraph (1) of subsection b. of this section¹ shall:

23 (1) be certified to administer cardio-pulmonary resuscitation;

24 (2) be able to operate a basic life support vehicle; and

25 (3) ¹[possess a certification from the National Safety Council,
26 National Registry of Emergency Medical Technicians, American Red
27 Cross, Emergency Care and Safety Institute, the American Health and
28 Safety Institute, or an equivalent certification] have completed a
29 training program that has been approved by the basic life support
30 agency medical director and that includes, at a minimum: safe vehicle
31 operations; patient lifting and moving; safe use of patient restraints;
32 basic first aid; and documentation¹.

33 ¹d. The provisions of subsection b. of this section shall not apply
34 to a basic life support vehicle dispatched in response to a 9-1-1
35 emergency call, which vehicles, when in service, shall be staffed by a
36 minimum of two emergency medical technicians.

37 e. Nothing in this section shall be construed to:

38 (1) revise the requirements for certification, or to practice, as an
39 emergency medical technician, an emergency medical technician-
40 paramedic, a mobile intensive care nurse, or a specialty care transport
41 nurse in New Jersey;

42 (2) revise the scope of practice authorized for emergency medical
43 technicians, emergency medical technician-paramedics, mobile
44 intensive care nurses, or specialty care transport nurses in New Jersey;
45 or

1 (3) revise the standards or requirements for equipment for basic
2 life support vehicles, mobile intensive care units, or specialty care
3 transport units.¹

4

5 2. This act shall take effect immediately.

6

7

8

9

10 Temporarily waives certain basic life support services
11 crewmember requirements.
