

CHAPTER 427

AN ACT concerning access to patient medical and billing records, and amending P.L.2019, c.217.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section 1 of P.L.2019, c.217 (C.26:2H-5n) is amended to read as follows:

C.26:2H-5n Hospital to provide medical, billing records; fees.

1. a. Except as provided in subsection d. of this section, if a patient of a general, special, or psychiatric hospital licensed pursuant to P.L.1971, c.136 (C.26:2H-1 et seq.) or of a State-licensed health care professional, the patient's legally authorized representative, or an authorized third party requests, in writing, a copy of the patient's medical records, the hospital or the health care professional shall provide a legible paper or electronic reproduction of the requested records within the dates requested to the patient, the patient's legally authorized representative, or the authorized third party within 30 days of the request, in accordance with the following:

(1) (a) For a request by a patient or the patient's legally authorized representative for a medical record, whether such record is stored electronically, on microfilm or microfiche, or on paper, the fee for reproducing the record shall not exceed \$1 per page or \$50 per individual admission record, whichever is less. The fee for reproducing a medical record shall not exceed \$50 per individual admission or patient record, inclusive of any additional fees specified in paragraph (3) of this subsection;

(b) If a patient requests a copy of the patient's own medical records in accordance with the federal "Health Insurance Portability and Accountability Act of 1996," Pub.L.104-191, the requirements provided under 45 C.F.R. 164.524(b) with respect to the time required to respond to such requests and the applicable fees shall apply; and

(c) A hospital or a health care professional shall not charge any fee to provide an electronic or paper reproduction of a billing record requested by a patient, a patient's legally authorized representative, or an authorized third party.

(2) Delivery of an electronic reproduction of a patient's medical or billing record shall be required only if:

(a) the entire request can be reproduced from an electronic health record system;

(b) the record is specifically requested to be delivered in electronic format; and

(c) the record can be delivered electronically.

(3) In addition to per-page fees, a hospital or a health care professional shall apply the following charges, provided that the total fees charged per individual admission record or patient record do not exceed \$50:

(a) a search fee of no more than \$10 per request; provided that no search fee shall be charged to a patient who is requesting the patient's own record. If a search fee may be charged under this subparagraph, the fee shall apply even if no medical records are found as a result of the search;

(b) a fee for the reproduction of x-rays or any other material that cannot be routinely copied or duplicated on a commercial photocopy machine, which shall be no more than \$15 per printed image or \$30 per compact disc (CD) or digital video disc (DVD), plus an administrative fee of \$10;

(c) a fee for certification of a copy of a medical record of no more than \$10 per certification; and

(d) costs for delivering records in any medium, plus sales tax, if applicable.

(4) The fees established in this subsection shall be charged for electronic reproductions as well as paper copies of medical records.

(5) The hospital or the health care professional shall establish a policy assuring access to copies of medical records for patients who do not have the ability to pay for the copies.

(6) The hospital or the health care professional shall establish a fee policy providing an incentive for the use of abstracts or summaries of medical records; however, a patient, a patient's legally authorized representative, or an authorized third party shall have the right to receive a full or certified copy of the medical record.

(7) Subject to the requirements of paragraph (2) of this subsection, medical and billing records shall be delivered in the manner specified by the requestor, which may include, but shall not be limited to, mailing the record to any address or faxing the record to any number specified by the requestor, including the requestor's attorney. Subject to the requirements of federal law, the method of delivery specified by a requestor shall not affect the fees that would ordinarily apply to the request under paragraphs (1) and (3) of this subsection, subject to any policies established pursuant to paragraphs (5) and (6) of this subsection and subject to the provisions of subsections c. and d. of this section.

b. Access to a copy of a patient's medical record shall be limited only to the extent necessary to protect the patient. The patient's attending physician shall provide a verbal explanation for any denial of access to the patient, legally authorized representative, or authorized third party, and shall document the denial and explanation in the medical record. In the event that direct access to a copy by the patient is medically contraindicated, as documented by a physician in the patient's medical record, the hospital or the health care professional shall not limit access to the record to a legally authorized representative of the patient, an authorized third party, or the patient's attending physician.

c. A hospital or a health care professional shall not assess any fees or charges for a copy of a patient's medical records as provided herein other than those provided for in this section.

d. The fees authorized by this section shall not be imposed on:
