STATEMENT

30

31 This bill requires signs with information on compensation and
32 services available to certain crime victims through the Victims of
33 Crime Compensation Office (VCCO) to be displayed in all hospital
34 and satellite emergency departments in this State.

35 The VCCO provides compensation and services to certain crime
36 victims; surviving spouses, parents, or guardians of crime victims;
37 and people who were injured while trying to prevent a crime or
38 assist a police officer in making an arrest. Reportedly, the office
39 has distributed only a portion of State and federal funds available to
40 victims, and returned over \$380,000 of unspent federal victims'
41 assistance grant monies.

42 According to the sponsor, eligible victims and their families
43 often are unaware that they may apply for compensation from the
44 office. Under the bill, the Commissioner of Health is required, in
45 collaboration with the Attorney General, to develop, prepare, and
46 produce signs that display information relating to the VCCO. The
47 signs are required to contain information concerning the services

1 and benefits offered by the office, contact information for the
2 office, and the procedures for filing a victims' compensation claim.
3 The Commissioner of Health is to require two signs to be posted,
4 one in English and one in Spanish, in a conspicuous place in every
5 emergency department of a general hospital and satellite emergency
6 department licensed in this State.
