STATEMENT

21

22 This bill amends the annual appropriations act for Fiscal Year
23 (FY) 2020 to increase the amount appropriated from the “Drug
24 Enforcement and Demand Reduction Fund” to the Department of
25 Human Services for a grant to the Partnership for a Drug-Free New
26 Jersey. A language provision in the enacted FY 2020
27 appropriations act provided that \$1 million was to be appropriated
28 from the Fund to the department for a grant to Partnership for a
29 Drug-Free New Jersey, and this bill, if enacted, would double that
30 amount to provide for a total appropriation of \$2 million.

31 New Jersey continues to battle an opioid crisis that is impacting
32 all of its counties. Deaths from drug overdose and administrations
33 of naloxone are at record highs. In 2017, the State recorded 12,640
34 drug-related hospital visits, up from 7,408 in 2015. Furthermore, in
35 2017, there was a drug-related death every 3.2 hours in the State.
36 The Partnership for a Drug-Free New Jersey provides public
37 awareness campaigns and educational programs, through media,
38 public health, and workplace initiatives that are essential to save
39 lives and combat this crisis.
