21 22 23 STATEMENT

24
25 This bill would authorize a municipality or county to make
26 special emergency appropriations to support its response to the
27 COVID-19 crisis. As a result of this authorization, municipalities
28 and counties would also be able to issue special emergency notes to
29 fund these appropriations under current law. This bill would
30 provide these local units with added financial flexibility to
31 effectively respond to the COVID-19 public health and economic
32 emergency.

33 Under the bill, municipalities and counties could, over a five
34 year period, make special emergency appropriations as they grapple
35 with the unexpected costs related to COVID-19. These cost
36 uncertainties may persist over this period as long-term testing,
37 financial measures, and other responses needed for public health
38 and economic recovery continue to evolve.
