

SENATE COMMERCE COMMITTEE

STATEMENT TO

SENATE, No. 2582

STATE OF NEW JERSEY

DATED: JULY 23, 2020

The Senate Commerce Committee reports favorably Senate Bill No. 2582.

This bill updates the training requirements for psychologists. Current law states that two years of professional employment is required of an applicant to qualify for licensure from the State Board of Psychological Examiners (the “board”). Under the bill, the term “employment” is changed to “experience” to account for professional opportunities that may not have entailed employment.

Current law also requires at least one year of the professional employment to be completed after receiving a doctoral degree. Under the bill, individuals applying for licensure after October 1, 2020, or six months after the effective date of the bill, whichever is sooner, may complete the required two years of full time professional experience, or any portion thereof, prior to receiving the requisite doctoral degree.

The bill also provides that an applicant who has applied to the board but is not yet licensed by the effective date of the bill may update the application for licensure with professional experience earned prior to the applicant receiving a doctoral degree.
