41 STATEMENT

42
43 This bill requires all newly manufactured semi-automatic
44 handguns sold in this State by licensed retail firearms dealers to be
45 micro-stamped.

46 Micro-stamping is a laser technology that can engrave or etch
47 microscopic identifying characters or letters on small objects.
48 These characters or letters would be engraved onto the internal

1 working parts of the semi-automatic handgun to ensure that an
2 alpha-numeric or geometric code is imprinted on the cartridge case
3 when the semi-automatic handgun is fired. The alpha-numeric or
4 geometric code would identify the make, model, and serial number
5 of the semi-automatic handgun. The array of characters on the
6 cartridge may then be utilized by law enforcement to identify the
7 make, model, and serial number of the handgun.

8 The bill requires licensed retail firearms dealers to report their
9 handgun sales to the State Police. The bill directs the
10 Superintendent of State Police to establish and maintain this
11 information in a database which would be accessible by each law
12 enforcement agency in the State.

13 A licensed retail firearms dealer who sells or transfers a handgun
14 that is not micro-stamped would be guilty of a crime of the fourth
15 degree. In addition, it would be a third degree crime to deface or
16 remove the microstamping mechanism of a semi-automatic handgun
17 for the purpose of altering the appearance of its alpha-numeric or
18 geometric code. A person who purchases, buys, receives, disposes
19 of or conceals a semi-automatic handgun with the knowledge that
20 the microstamping mechanism has been defaced or removed would
21 be guilty of a crime of the fourth degree. A crime of the third
22 degree is punishable by a term of imprisonment of three to five
23 years; a fine of up to \$15,000; or both. A crime of the fourth degree
24 is punishable by a term of imprisonment for not more than 18
25 months; a fine of up to \$10,000; or both.
