STATEMENT

35

36 This bill clarifies existing law that the Fish and Game Council is
37 empowered as the sole State governmental entity responsible for
38 determining whether or not any species of fresh water fish, game
39 bird, game animal, or fur-bearing animal may be fished, hunted, or
40 trapped, and in determining what circumstances, when and in what
41 localities, by what means and in what amounts and numbers those
42 species may be fished, hunted, or trapped. The bill also clarifies
43 existing law to require the Division of Fish and Wildlife, the
44 division director, the Department of Environmental Protection
45 (DEP), and the Commissioner of Environmental Protection to
46 implement the State Fish and Game Code as adopted by the council
47 and any comprehensive policies concerned therewith as formulated
48 by the council, all as directed by the council. The bill further

1 emphasizes the autonomy of the council pertaining to matters of
2 fresh water fishing, hunting, and trapping by removing the council
3 from the division and instead locating it in, but not of, the division
4 and the DEP.

5 This bill is necessary to correct the clearly erroneous
6 interpretation of the statutory law given recently by the New Jersey
7 Supreme Court in the case of U.S. Sportsmen' Alliance Foundation
8 v. New Jersey Department of Environmental Protection. In its
9 December 2, 2004 decision in that case, the Court reversed a well-
10 reasoned, unanimous three-judge Appellate Division opinion and
11 thereby stopped the black bear hunt scheduled for December 2004
12 until certain specified conditions were met. In doing so, the
13 Supreme Court found that the Fish and Game Council and the
14 Commissioner of Environmental Protection have "shared
15 responsibility" regarding the formulation of comprehensive policies
16 pertaining to game animals, including black bears. The effect of
17 this decision was to give the commissioner veto authority over any
18 action taken by the council, thereby transforming the council into a
19 mere advisory body. This result is clearly contrary to the statutory
20 law establishing the Fish and Game Council as a fully capable
21 regulatory body, providing for adoption of the State Fish and Game
22 Code by the council only, and establishing the State Fish and Game
23 Code as the only mechanism by which fresh water fishing, hunting,
24 and trapping is regulated in the State. The Court's decision wrongly
25 upset an established statutory framework, over 50 years of
26 precedent, and the designed and mutually accepted working
27 relationship established by the council with the Division of Fish and
28 Wildlife over that time period since the council was created by law.

29 Section 16 of this bill also provides that lands under the
30 administration, ownership, management, or control of the Division
31 of Fish and Wildlife or the DEP which were acquired in whole or in
32 part with monies from the "hunters' and anglers' license fund," from
33 the New Jersey Waterfowl Stamp Account, or with federal aid for
34 fish and wildlife purposes, shall not be closed to the taking of any
35 species of freshwater fish or wildlife in accordance with the State
36 Fish and Game Code by the action of any State agency or official
37 without the approval of the Fish and Game Council. This section
38 responds in part to an Appellate Division opinion issued November
39 24, 2004 in the case of Safari Club International v. New Jersey
40 Department of Environmental Protection in which the court
41 interpreted the current statutory law in support of affirming the
42 notice recently issued by the Commissioner of Environmental
43 Protection closing all lands owned, managed or controlled by the
44 DEP to bear hunting.
